Dr. Erik Hess

Co-Investigators  
Dr. Ian Stiell  
Dr. Jeff Perry  
Dr. Adam Cwinn

Research Nurse  
Pam Ladouceur

Data Base Manager  
My-Linh Tran

Data Entry Clerk  
Sheryl Domingo

Phase I of the Chest Pain Study began in July 2007. We are currently enrolling patients at the Civic Campus. Our research nurse is Pam Ladouceur who is a staff RN at the Civic Campus ED.

Enrollment in the study is going well with 541 cases enrolled to date. **We have enrolled 62 positive cases and are 50% done!!!**  
**Keep the pink forms coming!!**

## THINGS TO REMEMBER

- Complete a data collection form for all chest pain patients with possible acute coronary syndrome
- If you assess a patient and determine that they are not eligible, please complete the top of the pink sheet and document why.
- Please identify the patient on the pink form with at least the patient initials, chart number, and date if it is not already stamped.

## STUDY UPDATE

We currently have 541 eligible enrolled cases.

Site	Eligible Enrolled	Missed Eligible	# positive ACS cases
Civic	541	221	62
