Seminar Series

Tues. November 2, 2021
12:00-1:00pm

ZOOM Meeting

Presented by:
Bénédicte Amilhon, PhD
Assistant Professor
CHU Sainte-Justine Research Center
Department of Neuroscience
Université de Montréal

Hosted by: Dr. Simon Chen

Seminar Title:
"Probing Neural Circuits of Anxiety and Memory: Roles of Raphe-Hippocampus Pathways"

Learning Objectives:
1) Gain understanding about the properties and roles of brain oscillations,
2) Gain insight into the importance of brain rhythm modulation for cognitive function and behavior and
3) Address the importance of sex-related differences in emotional behavior
