

SHARE YOUR

RAAM CLINIC EXPERIENCE

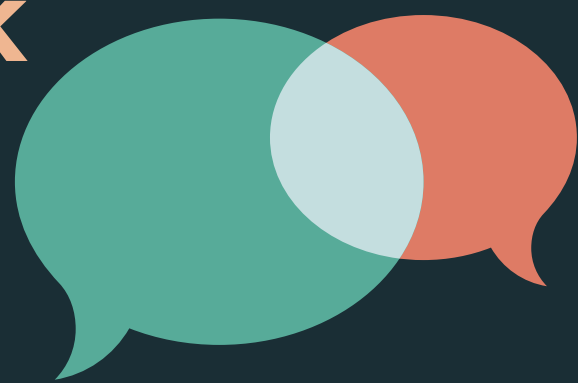

Who are we looking to hear from?

Researchers want to hear from individuals who have been to a Rapid Access Addiction Medicine (RAAM) clinic in Ontario to seek support for concerns related to alcohol use.

What would participating look like?

During a 1-hour confidential interview, we will ask about your experience going to the RAAM clinic.

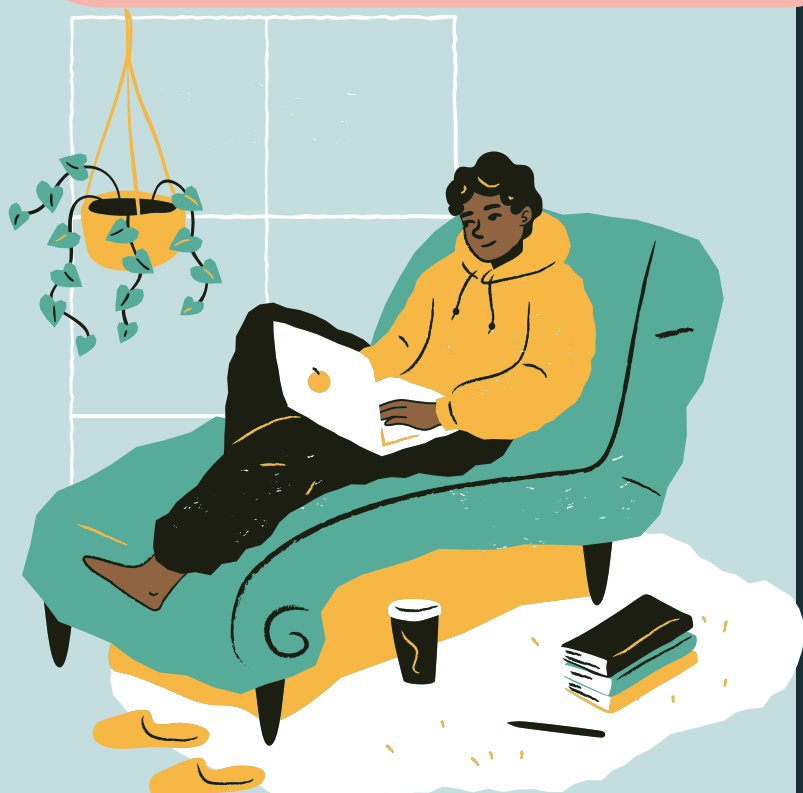

Available in English or French

Where would the interview take place?

From the comfort of your own home!

Interviews will be held by phone or virtually through Microsoft Teams.

Why should I take part?

Your answers will help us understand what makes going to a RAAM clinic for problematic alcohol use easier and what makes going more challenging. This, in turn, will help improve RAAM clinics and better meet client needs.

You will also receive a \$25 Amazon or Tim Hortons gift card as a thank you for your time!

Are there any risks or harms to me if I participate?

Because the topic of substance use health can be sensitive, you may feel some discomfort with some of the questions. However, you can choose to skip questions at any time.

How do I get involved?

If you're interested, please [click here](#) to be sent to fill out a short pre-screening survey. If you prefer to fill out the survey in French, [click here](#).

If you would like more information, please email Dr. Kednapa Thavorn at kthavorn@ohri.ca
