- * indicates Chair signing authority for the REB
- ** indicates Natural Health Products knowledge for review of these studies
- *** indicates Chair signing authority via written delegation during extended absences by the Chair or Vice-Chair
- † trained as REB delegate during extended absences by the Vice-Chair for Heart Institute
- ≠ Able to fulfill the role of “Knowledgeable in Research Ethics” through documented training.

Note:

1. Members may be asked to attend at any of the 3 panels if quorum is an issue.
2. All TOH/OHRI and UOHI staff and physicians must undergo mandatory Privacy/PHIPA training which includes annual refreshers. Therefore any member affiliated with TOH, OHRI or UOHI would be able to fulfill the role of “**Knowledgeable in Privacy/PHIPA**”.
3. A member may be able to represent multiple roles at a meeting; however, REB members **may not wear more than 2 hats at a meeting**.
4. The OHSN-REB has mandated that all investigators (QI or Co-I) must show proof of TCPS 2, GCP, and Health Canada Division 5 training in order to obtain REB approval for their interventional research project. It is also recommended that all research coordinators undergo the same training; however it is not required for approval. Therefore, any REB member who is also an OHSN-REB applicant should be considered as a member “**Knowledgeable in Research Ethics**”. These members are identified by a ‘≠’ in the final column.
